

Hello Prospective Divine Mercy Academy Families!

My name is Jen Kessler and I am currently the president of the PTG here at Divine Mercy Academy (DMA). My daughter Katie is in 4th grade and my son, currently a senior in high school, also attended here.

The decision of choosing a school for your child is not an easy one. It takes research, word of mouth recommendations and of course prayer. I know through experience with both of my children.

But I must say, after choosing a faith-based education for our son, no decision was necessary for our daughter. It was DMA all the way!

Our time at the school has been beyond wonderful. DMA is filled with teachers who go above and beyond each and every day for their students. The class room sizes are small purposely to allow for the individual focus each and every student needs. The curriculum is rigorous and each year is designed to prepare the students not just for the current year, but even more importantly, prepare them for the next...and the next until they matriculate to high school. High school preparedness is an important component for our middle school students.

The curriculum begins as early as preschool. Here you will find a loving, nurturing environment where your child is introduced into the exciting, fun world of school at DMA. We include our preschoolers in the activities of the older students; buddying them up with an older student partner who end up becoming sweet friends throughout their time at the school.

Activities abound for your child at DMA. Sports activities begin in the second grade where all of our athletes are taught not only how to play and improve upon skill levels, but more importantly, how to be a team member and represent not just themselves but their team and school both on and off the game clock. Talent abounds with our teams! This year alone we have sectional winners for multiple sports.

We offer clubs and other social activities for our students and their families. I personally have made life-long friends with my children's friends' parents and their teachers. We truly do embody a family feeling. As our students and teachers always say....it's a great day at DMA!

So, enroll and jump into the fun! We are here to make the next step in your child's life a wonderful one. The more you are involved, the more you and your family will get out of the school. The journey begins with you but after that first step, you'll have wonderful friends and a school family to be your journey partners each step of the way.

All the best and go Sabers!

Jen Kessler, DMA PTG President
